

## PLAN TO ENTERTAIN THE REPUBLICAN CONVENTION IN STYLE

Col. Jose E. Sena Heads Arrangements Committee for Gathering of the Standard-Bearers in Santa Fe Monday

### CANDIDATES STILL AN UNCERTAIN QUANTITY

Andrews Still the Favorite in Spite of Strong Drift to B. C. Hernandez of Rio Arriba County.

(Special Correspondence to the Herald)

Santa Fe, N. M., Aug. 18.—In the absence of Senator E. H. Catron, who is in Albuquerque on legal business, Vice Chairman Marcelino Ortiz of the county Republican committee today named a committee on arrangements for the Republican state convention which is to meet here Monday, August 24. The committee is headed by Col. Jose E. Sena, who as a master of ceremonies has no peer in New Mexico, and the other members are Charles C. Catron, Mayor W. G. Sargent, A. M. Berger, George Kinsell, Rolob Lopez and other well known Republicans. Efforts will be made to give the visiting Republican delegates an enjoyable time during their stay, which because of uncertain conditions in the Republican party may extend over two or three days. While the number likely to attend is not known, it is believed there will be a good-sized delegation and the making of special rates will help to swell the crowd.

The uncertainty in Republican candidate matters is even greater than has been the case heretofore, which is somewhat beyond the limit. Hugh Williams, whose efforts to conceal the fact that he wants to hold on to his job have been hopelessly inefficient, has just come back from a trip to Canada and has found out that more than one candidate has entered the ring, and while not so well equipped with bellows capacity as Mr. Williams, they are a little stronger on candle power when it comes to corralling delegates. As a result Hugh's candidacy is up in the clear blue sky, where just at present a storm is raging.

The candidate for congress is equally uncertain but W. H. Andrews is the one best bet. The nomination of Elfraga Baca is recognized by the

party bosses as impossible, whatever Baca's friends may think of this view, and Andrews, as the one man who earnestly wants the nomination, has a strong lead. Williams' campaign for the nomination is one of the strong forces against the Andrews candidacy. Williams has strong friends in his home and a few other counties who want him nominated, and if he is put on the ticket the leaders say they will simply have to have a Spanish-American for congress. On the other hand, if Andrews is nominated, Mr. Williams' chances will blow up with a loud report, since the Spanish-American plea will hold for the corporation commission post.

Senator Catron since his return from Washington has kept absolutely still. There are a few wise young men who think they know what the senator wants in the way of a nomination, but they are only guessing, for the senator is going to wait until the convention meets to make up his mind. In the meantime it can be said on sound authority, that the title has turned strongly to B. C. Hernandez of Rio Arriba county and that there is much more than a chance that he will be named to oppose Mr. Ferguson.

Hernandez is one of the strongest men in the Republican party has left in the standard ranks. His record is clean and while he has never given evidence of any special ability, and is little known outside his own district, where he is a political power, he is styled "a good man," and is one.

### "DON'T-GIVE-A-DAM" ATTITUDE AMONG BOSSES

"We don't give a dam" and "I don't care" are probably the best idea of the attitude of the bosses of the machine toward the nominations of both the congressman and the candidate for the corporation commission. Recognizing that there is no chance to elect either candidate, they are going to turn their attention strictly to the legislative fight and let the state candidates shift for themselves. Of course a candidate who can and will put up a big campaign fund and make and finance his own fight is desirable, and this is the strongest influence for Andrews. But whoever the candidate is he may look for no help from the machine. It realizes that it cannot carry the state and, having troubles of its own, it will devote its entire time to attending to them. To assist the machine and have the legislature and the bosses propose to make a fight to a finish to that end.

## PROGRESSIVES TO HOLD PRIMARIES IN SANTA FE

First of County Conventions of Bull Moose Party Called for 31st of August.

(Special Correspondence to the Herald)

Santa Fe, N. M., Aug. 18.—Santa Fe as headquarters of the Progressive party in New Mexico is the first county to come forward with the formal call for county primaries and convention, the precinct meetings to be held August 23 and 24 and the convention on the 31st, according to a call issued by County Chairman E. C. Burke today. The Progressives here will be a force in the state campaign and will cut a large vote. In Grant, Luna, Dona Ana and several other counties they will cut a figure, notably in running the ranks of Republican voters in Colfax county, where Jeremiah Leahy, the probable candidate for congress, lives.

But for the unwavering Republicanism of Bernard S. Rodey of Albuquerque it is believed he could have had the Progressive nomination, for Rodey is a popular man and would make a strong campaigner, but Rodey has said he wants only a Progressive endorsement, and that he is not likely to get. He will have to join the party to get on the ticket.

It is expected that every county will have a delegation in the state convention at Belen September 2.

### IT'S HARD TO WORK

When Suffering From Kidney Ills. Many Albuquerque People Find This to Be True.

What's so hard as a day's work with an aching back? Or sharp "stabs" of pain with every sudden twist of turn?

There is no peace from the dull ache—No rest from the soreness, lameness and weariness. If the kidneys are disordered you can't reach the cause too soon.

Neglect is often fatal. Weak kidneys need prompt attention.

Begin using Doan's Kidney Pills at once—A tested and proven kidney remedy.

Albuquerque readers should find new hope in the following statement. Louis M. Getman, Albuquerque, says: "My back was weakened by heavy lifting of trunks and other baggage. It got so bad I could hardly stand straight and it was hard for me to jump off and on the wagon. I was weak and became more so every day. One day I read how Doan's Kidney Pills had cured a local citizen of a similar case and I got a supply. The first box did me so much good that I got several more. They made me well."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Getman had. Foster-Milburn Co., Props., Buffalo, N. Y.

Lost anything? Let a Herald want, and find it for you.

## FUSION SCHEME IS SAID RAILROAD MEN TURNED DOWN IN GRANT COUNTY

Republican Plan to Grab Legislative Representation Is Refused by Democrats at Silver City.

(Special Correspondence to the Herald)

Silver City, N. M., Aug. 18.—Your correspondent was able to accomplish the unprecedented feat of riding the elephant and donkey at the same time today when he attended the Republican and Democratic conventions of Grant county. Both were called for the same place at the same hour. The Republicans, however, took the Elks' opera house while the Democrats assembled downstairs in the club rooms. Only five out of the twenty-eight precincts were represented in the Republican convention while the Democrats had a representation from nine precincts.

The hosts of Democracy got under way first. Senator W. B. Walton, county chairman, called the convention to order. After the reading of the call, Wayne MacVeagh Wilson, personal friend of the president and the original Wilson man of the state, was elected temporary chairman. He made a happy speech in which he called attention to the fine record of the national administration. He also commended Governor McDonald. Judge H. D. Torrell of Clovis, was selected as the permanent chairman. He voiced the hope that Grant county always the pivotal county in the politics of the state, would do even better by Mr. Ferguson than it did two years ago when it gave him a rousing plurality.

The resolutions condemned and denounced the last legislature, stated that a decent legislature was the most important issue of the campaign, opposed all of the proposed amendments to the constitution, and especially the taxation and revenue amendment as being designed to legislate out of office the board of equalization, advocated a tax commission. The county salaries proposition was taboored for the reason that Senator Walton was against the governor on this subject while Representative Boulware upheld his hands.

A special resolution calling on Senators Fall and Catron and Representative Ferguson to use their best efforts to have congress pass a law exempting holders of unpatented mining claims from doing any labor assessment work during 1914 on account of the disturbed financial conditions was unanimously passed. A law similar to this was enacted by congress during the financial panic of 1893.

### Sheep Return to Fold.

While the Democrats were in recess awaiting reports of committees the Republicans were holding forth. They were in high spirits over the return of several who supported the Progressive party in the last campaign. Finally the county chairman, called the meeting to order and was elected temporary chairman. He made an old fashioned Republican speech in which he vigorously condemned the Democratic party in both nation and state. He said the county was in the grasp of a financial panic due to the tariff; that the Democratic party has placed the country on the verge of bankruptcy; that President Wilson, like the other Wilsons, the author of the tariff bill, 20 years was a college president, a theorist and impractical; that our foreign policy had made him the laughing stock of the world, and that the flag no longer stood for protection away from home.

He made a very bitter assault on Governor McDonald. Said he could be defeated by the weaker Republican party could nominate, that he "has tried and is trying to destroy every educational institution in the state with the exception of one, the university at Albuquerque."

Col. Howard H. Betts, who was both temporary and permanent secretary read the report of the committee on resolutions. This lambasted the president and governor's administration of affairs, pointed with pride to the achievements of the last legislature, sternly rebuked the governor for interfering with this body, endorsed all the Republican state officials as men who did their duty, highly commended the Republican treasurer and assessor of the county, committed themselves to a salary law that provided that \$2,400 is enough pay for any office and \$1,800 good pay for most.

Because of the unsettled financial conditions, passed a resolution calling upon Senators Fall and Catron and Representative Ferguson to aid in the enactment of a law exempting the mining men from doing any labor or assessment work on unpatented claims in 1914.

Although the call provided for the nomination of candidates for the lower house of the legislature, the convention adopted a resolution that a committee of five be appointed to confer with the Democratic convention, to be called later, for the purpose, if possible, of having each party agree to nominate its strongest and best man for this office rather than for each party to nominate two men. The purpose is to insure good men being sent to the legislature and also to force the expatriation. In the failure of the Democrats to agree to this proposition the committee has the power to nominate two candidates for the legislature. It is not likely that the Democrats will agree as they consider that they can elect both of their candidates and that it is simply a scheme for the Republicans to get a member of the legislature.

### What Next?

"Real fruit on the women's hats is the latest." "Oh, gee! Have we got to stand for hats in the ice box?"

## WILL NOTE FOR DEMOCRAT

O. L. Owen, of State Corporation Commission Thinks If Williams, Republican Colleague is Nominated He Will Be Defeated.

### NO CONCERTED PLAN TO GIVE HIM SUPPORT

O. L. Owen, member of the state corporation commission, who has been in Albuquerque for several days attending the state Democratic convention, left for Santa Fe last night thoroughly pleased with the Democratic nomination for the commission on which Mr. Owen still has two years to serve.

"The convention here was the most enthusiastic meeting of its kind I have ever seen in all my political experience," said Mr. Owen last night. "It was great. The interest exhibited was unselfish and loyal and the harmonious tone of the convention makes success for the Democratic state and legislative ticket certain in November. No one now questions the re-election of Mr. Ferguson by a record breaking majority, and I am certain that Mr. Hill, the Democratic nominee for the corporation commission will have an equally strong majority."

Mr. Williams, the present Republican member of the corporation commission, has for months been straining every nerve and using every influence to secure the re-nomination from his party, for which he has encountered considerable determined opposition. His efforts to secure the endorsement of railroad men have been laughable at times and the result has not been reassuring for him. I have talked with a great many railroad men, many of them Republicans, and I find that there is nothing in the way of concerted action among the rank and file of railroad employees to support Mr. Williams. In fact I am told that sixty to eighty per cent of the railroad vote of the state will go to the Democratic nominees, whether Mr. Williams is nominated by the Republicans or not. The effort made by Mr. Williams and his friends to bottle up the railroad vote and deliver it like a boss owned a county precinct of the olden days has proven a flat failure. The railroad boys have refused to be sealed up and delivered for Mr. Williams or any other man.

"I am fully convinced now that New Mexico will go Democratic all along the line in November and the party forever above the domination; or I might say, the damnation of Republican gang rule."

## WILLIAMS PARTIAL TO LIFE TERM JOB IN POLITICS

Corporation Commissioner Found a Man in Canada Who had Held Job Thirty Years and Likes the System.

(Special Correspondence to the Herald)

Santa Fe, N. M., Aug. 18.—Hugh Williams, who wants to be the Republican candidate to succeed himself in the state corporation commission, and who is having the fight of his young life to convince his Republican brothers that he is the man, has just come back from Winnipeg, Manitoba, where he attended the Knights of Pythias convention and also studied civil government. Hugh likes the Canadian system. In an interview given here today he says Canada has it all over us when it comes to holding office. According to Mr. Williams, there is no constant struggle to hold a job once you have acquired it. In Canada, Hugh found one man who had been elected to an office which he had held continuously for thirty years without the necessity of being re-elected at all. It made a deep impression on him. He would like to see that system adopted in New Mexico and put in force before there are any further political proceedings in this state.

### CANTELOUPES FROM FORT SUMNER MAKE HIT WITH THE HERALD

A big crate of the famous canteloupes which are putting Fort Sumner on the Pecon on the canteloupe map of the country, arrived at the Herald office this morning from W. M. Land, the well known Fort Sumner banker. The melons created a sensation in the Herald office and precipitated a demonstration on the part of the staff.

Shipments of canteloupes from Fort Sumner this year are the largest on record. A shipping station has been built by the Santa Fe and it has been necessary to import labor to help handle the banner crop, which has been selling at fancy prices.

Woman loves a clear, rosy complexion. Burdock Blood Bitters is splendid for purifying the blood, clearing the skin, restoring sound digestion. All druggists sell it. Price, \$1.00.

## PROPOSED PRIMARY BILL DISCUSSED BY LAWYERS

Clancy's Measure Criticised Because It Doesn't Go Far Enough. M. E. Hickey Elected President of Association.

### ALBUQUERQUE AGAIN THE PLACE OF MEETING

The State Bar association this afternoon, responding to an invitation presented by Senator James Bartholomew, met at the Commercial club, voted unanimously to meet again in Albuquerque next year in annual convention.

Judge G. A. Richardson presented an invitation from Hickey, well but withdrew it when it was plain that a majority of the members attending favored a meeting here again.

Vigorous discussion of proposed primary election and corrupt practices legislation marked the morning session of the State Bar association today. Using as his text his report as chairman of a committee on such legislation, to which is appended proposed bills on primary and general election, separation of the judiciary from politics and corrupt election practices, Attorney General Frank W. Clancy brought the subjects touched upon by those proposed measures before the convention.

Discussion of the primary legislation and of the proposed bill for the separation of the judiciary from politics was very general. There was a general sentiment in favor of primary elections, but the bill proposed was attacked by some members on the ground that it did not go far enough if primary election of any sort were desirable. Judge B. S. Rodey voiced the opinion of the "radicals" when he said the bar association should "go the entire length" and advocate and push legislation for statewide primaries with blanket ballots for the direct nomination of candidates.

United States District Attorney Summers Burkhardt declared himself in favor of primary elections. The present system, he said, had led to deplorable conclusions.

The sentiment was unanimous that the judiciary and politics should be divorced.

Officers were elected before the morning adjournment. M. E. Hickey was chosen president, and the following vice presidents for the different districts were elected: First district, F. C. Wilson, the retiring president; second district, J. A. Miller; third district, J. H. Paxton; fourth district, W. J. Lucas; fifth district, Tomlinson Fort; sixth district, F. W. Veltch; seventh district, E. A. Tomlinson; eighth district, J. D. Cutlip.

Mrs. Nellie C. Pierce was re-elected secretary and treasurer. This afternoon the association gave a "bite of thanks" to retiring President Wilson and to Mrs. Pierce, as an expression of appreciation of their services.

The afternoon discussion was on a suggested new code of civil procedure, the subject being introduced by A. B. McKim.

The convention crystallized sentiment among the members of the New Mexico bar as to needed legislation. Committees will draft bills embodying the views of the association, and every effort will be made to have them enacted. A steering committee is to be formed which, among other things, will take up the matter of new methods of procedure in reformed cases and improvement of the regulations for admission to the bar.

These committees were appointed: Allowance in poverty affidavit cases of appeals and amount of attorney's fees, Tomlinson Fort, R. C. Dow and Mr. Gilbert; changes in appellate procedure, Judge Roberts, A. B. McKim and S. B. Davis; disbarment proceedings, A. B. McKim, M. E. Hickey and W. J. Lucas.

A. H. Jones were elected delegates to the American Bar association.

Following adjournment this afternoon the visiting delegates were taken with their wives, on an automobile ride. Tonight the convention will wind up with dinner at the Alvarado. Judge Mann will be toastmaster.

### WILSON'S CONCLUSIONS ON TAXATION AMENDMENT

The association yesterday afternoon authorized the appointment of a committee to prepare a bill embodying Chief Justice Roberts' suggestions regarding changes in appellate procedure.

At last night's meeting United States Senator Thomas E. Catron spoke on Associate Justice Stephen J. Fields of the supreme court, and Federal Judge W. H. Pope spoke on Judge Logan E. Blockley.

Following the meeting there was an informal dance and reception, which was attended by a number of townpeople.

which the amendment may have, are sufficient to warrant its rejection."

Mr. Wilson did not touch on the political questions. He confined himself to an academic consideration of the subject.

Among other things Mr. Wilson said:

"It may not be amiss to state that our constitution makers had before them at the time that they drew this provision (the general property tax) a memorial from the National Tax Association submitting the following as the only provision necessary to be embodied in a constitution on the subject of taxation:

"The power of taxation shall never be surrendered, suspended or contracted away. All taxes shall be uniform upon the same class of property within the territorial limits of the authority levying the tax, and shall be levied and collected for public purposes only."

"The accumulated wisdom of men who have given the best years of their lives to the subject, combined with the lessons learned from the experience of every state which has made any material progress of recent years in taxation laws, are embodied in the brevity of the above provision. However, our constitution makers saw fit to disregard the recommendation and to hang about our necks a system which was well adapted to conditions of a century ago, but is wholly inapplicable to the new forms and classes of property brought into being by the industrial and financial development of the past fifty years. The constitutional convention of Arizona adopted the suggestion of the National Tax association and embodied the provision, word for word, in Article IX of the constitution of that state. As a result the legislature of Arizona was able to place immediately upon its statute books remedial tax legislation, including a law which provides for a non-partisan permanent state tax commission composed of three men."

Arizona's Wise Course.

"Our sister state, by taking advantage of the wisdom of others, has laid the foundation for steady progress along sound economic lines which will surely save her citizens many of the difficulties in the solution of taxation problems which now assail New Mexico and even some of the older and presumably more experienced states."

Following reference to the radical change in the entire revenue system that would be wrought by the amendment and a minute comparison of the provision of Article 8 now in effect with the corresponding sections of the proposed amendment, Mr. Wilson summarized his paper with the following conclusions:

### Restrictions Removed.

"1. The amendment is valuable in removing restrictions from legislative action and in permitting classification of subjects of taxation in place of the ineffective and inequitable general property tax system to which our constitution has limited New Mexico."

"2. The omission from the amendment of provisions that the power of taxation shall never be surrendered, suspended or contracted away and that taxation shall be uniform within the territorial limits of the authority levying the same and shall be levied and collected for public purposes only, or expressions to the same effect, is dangerous in the extreme."

"3. The amendment fails to provide that intangible personal property—money, stocks, bonds, mortgages and all forms of credits shall be subjected to some form of tax. It is proper that the method adopted for the imposition of taxes upon such property should be left to the determination of the legislature without restriction, but it is believed that entire exemption from any form of taxation should be prohibited in the constitution. However, his conclusion against which many good arguments may be honestly advanced, but the writer has endeavored to set forth the reason for his opinion in the text and the reader will have to formulate his own conclusions on the subject."

### Desirable Separation.

"4. The amendment permits the separation of state and local taxation, which is proper and legitimate, and preferable to the rigid provisions of the constitution as it now stands, which would not permit such separation even if it became desirable in future years. However, it is apparent that separation of state and local taxation at the present time is neither necessary nor desirable in New Mexico."

"5. The elimination by the amendment of the state board of equalization as provided for in the constitution is in line with progressive tax legislation all over the country. However, it is distinctly dangerous to provide no substitute for the present board in case the legislature should fail to act in January. It is for the people to decide whether they desire to leave such an important matter in the hands of the legislature, or if they accept the amendment the legislature will be held accountable to them for whatever action it may take or fail to take."

### DENIAL FROM ONE MORE G. O. P. DARK HORSE

J. Wright Giddings Indignantly Denies He is a Receptive Candidate for the Nomination to Congress.

(Special Dispatch to the Herald.)

Santa Fe, N. M., Aug. 19.—J. Wright Giddings, former editor of the Santa Fe New Mexican and a prominent Republican, in an interview here today denies firmly and indignantly that he is a receptive candidate for the Republican nomination for congress.

## Blood Tonic Has Important Meaning

Puts the Right Sort of Vim Where Most Needed.

To tone the blood means to enable it to throw off accumulated impurities, to increase the red corpuscles and to get the blood-making organs into such active condition as to produce that conscious sensation of what is called health.

This is the logical effect of using the famous blood purifier, S. S. S. Have the people you need complain of weary muscles, stagnant brain, jagged nerves, and a wonderful desire to lay down and just quit. Most of these people have been using nervines that spasmodically throw the nerves only to die down again, as they must. Avoid nervine stimulants. Bear in mind that this worn-out feeling is due to poor blood, to bacteria in the water you drink, to the multiplying of destructive germs in the blood faster than they can be overcome by the white corpuscles; and to what is known as an anemic condition where the venous or impure blood accumulates faster than it can be replaced by the red arterial blood.

S. S. S. has long been famous as a blood purifier, and its action by elimination of the irritating poisons that build up the venous blood is one of the very important things to know. You can get S. S. S. at any drug store, but write to their Medical Dept. for free advice. It will be worth your while to do so.

S. S. S. is prepared by The S. S. S. Co., 533 Sixth St., Atlanta, Ga. and if you have any deep-seated or obstinate blood trouble, write to their Medical Dept. for free advice. It will be worth your while to do so.

gress, or that he will permit himself to be considered as a dark horse.

### Prichard Denies His Death.

Col. George Washington Prichard, who arrived in Santa Fe today, immediately set out to deny the report of his death, the report of his serious illness and the report of his marriage, all of which rumors have been in circulation here for several days to the grave alarm of the Colonel's many friends. Col. Prichard states that he is not dead, has not been ill and has not been married. He also states that he is not a Republican candidate for congress.

## GRAY HAIR BECOMES DARK, THICK, GLOSSY

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and luster to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wright's Sage and Sulphur Hair Remedy." You will get a large bottle for about 25 cents. Everybody uses this old, reliable recipe, because no one can possibly tell that you dandruffed your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears and after another application or two your hair becomes beautifully dark, thick and glossy and you look years younger.

"Father of 'em gets the worst of it at bridge."

"How's that?"

"Well, if he loses, that ain't pleasant. And if he wins, mother always says she's glad to see him winning. He takes this as an intimation that he's a poor loser, and that gets him up in the air."
